

SOURASISH DAS

Kolkata, West Bengal | +91 9874228785 | dassourasish1234@gmail.com | github.com/sourasish423

EDUCATION

St. Thomas' College of Engineering and Technology

Bachelor of Technology in Electronics and Communication Engineering — 2021 - 2026

Future Campus School

All India Senior School Certificate Examination (Class 12) — 2020 - 2021

St. Stephen's School

All India Secondary School Examination (Class 10) — 2018 - 2019

TECHNICAL SKILLS

Languages: Python, Java, HTML, CSS, JavaScript

Frameworks & Technologies: React.JS, React Native, Node.JS, Express.JS, REST APIs, GitHub

Databases: MySQL, MongoDB, DBMS

EXPERIENCE

Pitchmatter

Frontend Developer | March 2026 – Present

- Developed responsive websites from Figma designs using React.JS with focus on **pixel-perfect implementation** and **performance optimization**
 - Conducted technical audits identifying **performance bottlenecks**, accessibility issues, and UX improvements for enhanced user experience
 - Documented technical drawbacks and provided detailed recommendations for **code refactoring** and **architectural improvements**
-

PROJECTS

Movie App

React, TMDB API, REST APIs, Async Storage

Live: react-movie-app-pied-pi.vercel.app | GitHub: github.com/sourasish423/react-movie-app

- Integrated TMDB REST API with pagination support (**500+ pages**) and optimized asynchronous data fetching reducing **load time by 35%**
- Implemented multi-screen navigation with dynamic routing and persistent **Favorites** feature using Async Storage for offline access

Todo App

React, Node.JS, Express.JS, MongoDB, JWT Authentication

Live: todo-app-psi-mauve.vercel.app | GitHub: github.com/sourasish423/ToDo-App

- Built full-stack todo management application with secure user authentication using **JWT tokens** and **bcrypt password hashing**
- Implemented MongoDB database for persistent task storage with **user-specific data isolation** and real-time synchronization achieving **200ms API response time**
- Created intuitive frontend with add, remove, and complete task functionalities; backend RESTful API with Express.JS for data management
